EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Response to Amendment

1. Applicant's amendment filed on July 5, 2006 has been fully considered and entered.

Reasons for Allowance

2. Claim 1 is allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or reasonably suggest all the limitations recited in claim 1. Specifically, the prior art of record fails to disclose a duplex optical transceiver comprising a connector for optical cable; a ring-shaped clinging member formed of metal; a hollow, cylindrical body formed of plastic, the body including a first opening at an open end coupled to the light source, a second opening on the peripheral surface coupled to the sensor, and a recessed, annular shoulder at the other end; and a filter mirror disposed within the body for detecting light emitted by the light source to an optical fiber of the optical cable and reflecting light incident onto the optical fiber to the sensor, where the clinging member is operative to insert into the shoulder for fastening by snapping and wherein the shoulder has an internal, annular ridge and the clinging member has an outer, annular groove being operative to matingly secure to the ridge

when the clinging member and the shoulder are fastened together in combination with the other limitations of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
